

Joseph R. Ornelas
Vice President,
Engineering & Technology
Hamilton Sundstrand

Joseph (Joe) Ornelas is Hamilton Sundstrand's vice president, engineering and technology, responsible for all of Hamilton Sundstrand's engineering activities including aerospace, industrial and international organizations.

Mr. Ornelas joined Hamilton Sundstrand in February of 2001 after a 33-year career at Boeing. There his last position was chief engineer on the 777. Previous, he held positions as director of systems on the MD-XX and MD12 program, MD-11 chief engineer, and other key roles in aircraft design and integration.

A native of southern California, he earned his bachelor's degree in industrial technology from California State University at Long Beach.
